I live a very healthy lifestyle and spend at least four days of the week working out either in the gym, swimming pool or dance class. My life is full of creativity and I am extremely passionate about working within this industry. Singing is a very big part of my life, having sung in a choir and played the guitar in an orchestra from a young age.

Being an A&E Locum Nurse has opened up fabulous opportunities both in front of and behind the camera, helping me to further develop my skills and knowledge on set.

I have lived and worked in Italy, Spain and the US as a teacher and working in humanitarian roles. I feel very strongly about making a positive impact within the industry. Communication and interpersonal skills are my strengths; I am very charismatic, full of energy and zest for life!
